

FOR IMMEDIATE RELEASE

Lipo-Laser Study Shows Positive Results in Physician Sponsored Study

Seoul, Korea, April 26, 2006, Meridian Co., Ltd. ("Meridian") (OTC:BB: MRDAF), is very pleased to announce the completion of a physician sponsored study using the Lipo-Laser conducted by Dr. R.A. Chubaty of Aestheticmd (www.Aestheticmd.com).

The study was conducted over a six week period and included 10 clients (9 female and 1 male). These clients were treated with the Lipo-Laser to observe cosmetic changes. The average number of 30 minute sessions was 4.5 treatments per client over the course of the six weeks.

Dr. Chubaty reported very positive results with the Lipo-Laser with marked differences in body appearance. The areas treated included the abdominal region in 8 clients, upper arms in 1 client and the thighs of the remaining client.

Quantitative results showed the average measurable inch loss per client was 5.51 inches. Results were also demonstrated by photographs which showed a positive and observable improvement in both the reduction of the appearance of cellulite and improved body contour and tone.

Mr. Myeong of Meridian was pleased with the results of this study and feels confident that the Lipo-Laser will be both a beneficial and successful product for consumers, business owners, and Meridian. Mr. Myeong stated "having the Lipo-Laser validated in a physician-sponsored study will be a tremendous asset to the Company's marketing and regulatory efforts in North America".

More About: Dr. Chubaty

Dr. Chubaty is a world renowned physician with a practice focusing on cellulite and spot fat reduction known as Mesotherapy. Dr. Chubaty was trained by Dr. Jacques Le Coz and Dr. Patricia Rittes, both of whom are considered pioneers and leading authorities on Mesotherapy.
